MOTION OF OFFICERS OF REGULAR FORCES BEFORE PARLIAMENT

Correspondence Between the War Office and Army Men Which Led to Wholesale Resignations and Reinstatements Made Public in "White Paper" or Official Communication.

London, March 25.—Documents made public today disclose officially the fact that the British government gave officers in Ireland a written guarantee that they would not use the army to crush Loyalist's present opposition to the home rule bill.

The correspondence, however, points out that the government retains its right to use the army to maintain law and order.

The orders issued by the war office in respect to the duties of the army in Ireland, chiefly in connection with the protection of government stores, arms and ammunition, are given very completely.

London, March 25.—The mutiny of a section of the officers of the British regular army in Ireland, when they believed they were to be ordered to fight the Loyalists, was again before the parliament today in connection with the correspondence between the war office and the army officers in Ireland which led to the recent wholesale resignations and reinstatements made public in the shape of a "white paper," or official communication to members of parliament.

It can be seen from this correspondence that the war office was informed early in December of the possibility of resignations of officers in case the Loyalist situation came to a crisis. In consequence of this information, Col. John Seely, the secretary of state for war, interviewed the Loyalist officers in command and explained to them that an order of the British army would be issued to the Loyalist army, only in case the order was a reasonable one under the circumstances.

The secretary for war told them that no one, from a general down to a private, was expected to resign, more than was required to maintain order and the safety of life and property. He continued:

"If, therefore, officers and men of the British army have been led to believe that there is a possibility of action being required by troops in supporting the Loyalist power, in protecting life and property when the police is unable to hold its own.

"Attempts have been made to dissuade the troops from obeying lawful orders given to them when acting in support of the civil power. In such attempts have amounted to the claim that officers and men of the army could pick and choose between lawful and reasonable orders, saying they would obey in one case and not in another."

Declaring that there had not been a single case of lack of discipline in this respect in the British army, Colonel Seely said:

"At the same time, as views and statements uttered in the press and elsewhere made my position most difficult, I informed the general officers that I would hold each of them individually responsible to see that there was no conduct in their commands subversive to discipline. I told them they could be held clearly responsible for any such conduct would be dealt with under the king's regulations."

"If any army officer should tender his resignation, I told him I would ensure that he should look for his reasons, and if he indicated that he desired to choose which order he would obey, he would submit to the king that the officer should be removed from the army."

This document was followed by a letter dated March 14, from a war office to General Sir Arthur Parnet, commander-in-chief of Ireland, in which Sir Arthur was informed:

"In consequence of reports received by the government, that attempts will be made in various parts of Ireland by the Loyalist persons to obtain possession of arms and ammunition and other government stores, it is considered advisable that you should at once take special precautions for safeguarding the deposits and other places where arms and munitions are kept as you may think advisable."

"Liable to Attack?"

"It appears that Loyalist, Omagh, Carrickmacross and Camblin are sufficiently guarded, being specially liable to attack."

Orders also were given to the officers in command of the barracks where arms and ammunition were stored of located. They were told they would be held responsible for the safety of that property and that such places never should be left unguarded. It is pointed out that this order referred to the whole of Ireland.

General Parnet telegraphed to the war office on March 20th, that all the officers of the Fifth Royal Irish Lancers, stationed in Ireland, were ready to accept the exception of two. He said he feared that the name conditions prevailed among the officers of the Fifth and Sixth Lancers stationed at the Curragh, and that the men would refuse to accept the order.

The war office replied to General Parnet:

"You are authorized to suspend from duty any senior officers who have tendered their resignations, or in any other manner have disavowed their authority. The resignations of all officers should be refused."

General Parnet also said that other officers were being sent to relieve Brigadier General Hubert Gough, in command of the Third Cavalry Brigade, and the commanding officers of the Fifth and Sixth Lancers who were ordered to resign.

General Gough's Report.

Brigadier General Hubert Gough, in reporting the feeling in his brigade as a result of the Loyalist situation, conveyed to him verbally by General Sir Arthur Parnet said:

"The Loyalist officers are unanimous in the opinion that further information is essential before they would be ordered to take disciplinary action, as ordered by the Loyalist government."

He also said that the Loyalist officers were being sent to relieve Brigadier General Hubert Gough, in command of the Third Cavalry Brigade, and the commanding officers of the Fifth and Sixth Lancers who were ordered to resign.

General Parnet also said that other officers were being sent to relieve Brigadier General Hubert Gough, in command of the Third Cavalry Brigade, and the commanding officers of the Fifth and Sixth Lancers who were ordered to resign.

STREET NAMING THE WISH OF PEOPLE

Council Adopts New Scheme Recommended by Specially Appointed Committee.

"EDMONSCONA" AND THE 1913 SYSTEM

Both Will Be Referred to the Citizens in Form of Plebiscite on April 6.

The council approved of the recommendations of the specially appointed committee on the street naming question and will refer two alternative systems to the voters on April 6th.

The scheme proposed by "Edmonscona" and the old numerical system partly completed last year will be submitted.

Almerman Clark, as chairman of the committee explained at some length the "Edmonscona" system which emphasizes the historical and geographical harmonies of the old system and harmonizes it with a plan that overcomes the objections that have been made against the numerical details have already been published in the Daily Capital.

Almerman Kinney Talks.

Almerman Kinney stated that he supported the recommendation of the committee, not because he agreed with the details, but because it was so much at variance with the all numerical system that the people would soon see that the latter is much superior.

Almerman Calder objected to the suggestion that the committee report on having all the big numbers in the center of the city, and the small numbers in the suburbs.

Almerman Clark said that he believed the people would demand some system that would give the small numbers in the center of the city and the big numbers in the suburbs.

Almerman Clark said that he believed the people would demand some system that would give the small numbers in the center of the city and the big numbers in the suburbs.

WOMEN'S AILMENTS CAUSED BY NEGLECT

Proper Treatment Will Quickly Bring Back Robust Health and Good Spirits.

Women are on the whole more richly than men. One reason is that their system is more complicated; another more important reason is they put off measures of relief too long. At the beginning, constipation is the chief trouble of women's ailments. The blood becomes weakened and polluted and the system suffers and a run-down condition takes root.

Because of their mildness of action a system regulator, no medicine for women can compare with Dr. Hamilton's Pills. The kidneys quickly respond to the remedial action of Dr. Hamilton's Pills and the result is as you would expect—pain in the back and side, shortness of breath, and bad color disappear—the functions of the body then operate naturally, congestion and pain are prevented and perfect health returns.

Thousands of happy women say Dr. Hamilton's Pills are the greatest and best blood-purifier, the finest complexion renewer, the most certain remedy for constipation. Sold by all druggists and storekeepers, 25c. per box, five for \$1.00 postpaid. Dr. Hamilton's Pills, Buffalo, N.Y., and Kingston, Canada.

Proper treatment will quickly bring back robust health and good spirits.

FEW PROPOSALS FOR CITY MARKET

Almerman Sheppard Tells of Scheme to Erect Building on the Present Site.

COMMISSION AGENT WOULD BE APPOINTED

Suggestion is Also Made That More Stalls Are Needed to Protect Produce.

With the permission of council Almerman Sheppard moved to introduce several new matters not on the agenda at the council last night. First he asked for a commission agent for the U.F.A., representing 10 local farmers in favor of 100 acres for stock yards.

He then extended the thanks of the U.F.A. to the city council for the interest and support given in connection with the recent meetings held in the Empire auditorium.

At the third place he unveiled a scheme planned recently by the farmers which is intended to be a boon to the city and a relief to the farmers who have goods to market in Edmonton. It is in brief that the city erect a suitable building on the present market site for the use of a commission agent to be appointed by the U.F.A.

Fourth, that the city take immediate steps to build temporary sheds for the proper protection of goods offered for sale on the market.

While Almerman Sheppard would have been better pleased had action been taken last night, the city council extended the Bonnie Doone car line to the next meeting.

The site of the building proposed for the agent of the U.F.A. put down at 50x25 feet. Almerman Sheppard pointed out that there need not be any loss of space in the market square, as the building could be moved to the new market site and used as a shed for hay, all of which must now remain out of doors in all kinds of weather. In making inquiries he said that farmers would be willing to erect a building of this size for \$125 a month.

He recommended that the sum of \$100 be set aside for the purchase of the site and that the building be erected on the site and used as a shed for hay, all of which must now remain out of doors in all kinds of weather. In making inquiries he said that farmers would be willing to erect a building of this size for \$125 a month.

FROM LAXATIVE FOR SICK CHILD GIVE "CALIFORNIA SYRUP OF FIGS"

Cleanses tender little stomach, liver, bowels without injury.

Every mother realizes that this is the children's ideal laxative and physic, because they love its pleasant taste and it never fails to effect a thorough "inside cleansing" without griping.

When your child is cross, irritable, feverish, or breath is bad, stomach sour, bowels at the tongue, mother? Then, give a teaspoonful of California Syrup of Figs; and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels and you have a little playful child again. When its little system is full of cold, throat sore, stomach acid, diarrhoea, indigestion, colic—remember a good liver and bowels cleansing should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Directions for babies, children of all ages and grown-ups are plainly on each bottle.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs." Beware of counterfeits sold here. The genuine, made by "California Fig Syrup Company." Refuse any other fig syrup with contempt.

Doings Of The City Council

Agreed to Submit to Plebiscite Two Numbering Schemes. Voted Down All West End Cemetery Site Proposals.

Hears Almerman Sheppard Explain Improvements to Market. Approved of North Side Incinerator, Cost \$130,000.

Changed the Hours of Voting, Will Be From 9 to 8. Sends Lettergram to Ottawa re the G.T.P. Agreement.

Instructions Solicitor to Defend City in Gazette Action. Named Committee to Attend Sanitary Engineers Convention.

Approved Grant of \$750 to Foster Amateur Sports in City. Approved of Widening of Sixteenth Street, South East.

South Side Sewer and Water Extensions are Passed. Hears Delegation From East End Ratepayers Association.

Bylaws and Many Other Matters Were Given Attention. Listened to Almerman Clarke Score the Bulletin.

DELEGATION FROM MILL CREEK VALLEY ON THE ALBERTA

Representing the Mill Creek East Ratepayers' association, Messrs. Williams and Mayson appeared before council last night, urging that the city extend the Bonnie Doone car line to serve the residents living beyond the present terminus; also that steps be taken and an appropriation made in putting the Connor's Hill road into shape, building a suitable sidewalk and bridging the ravine with a permanent structure.

Mr. Williams dealt more particularly with the need for the improvement to the road, urging that for years the 1700 or more residents of that district have had to wade through the mud in the rainy season to get out to the city.

In referring to the appeal made by Mr. Williams, Mr. Mayson stated that he had been like the voice of one crying in the wilderness, trying to make our city have had to wade through the mud in the rainy season to get out to

"EDMONSONA" SYSTEM SHOULD SOLVE PROBLEM

It Has Been Well Thought Out By Dr. Revell and Geo. Gowan.

PRACTICALLY ALL OBSTACLES REMOVED

The Entire Plan is Explained in a Letter Attached to the Map.

The prize winning street naming scheme submitted by George Gowan and Dr. G. G. Revell is fully explained in a communication attached to the map of the city on which the layout appears. Under the plan of "Edmonsona" this system was selected by the specially appointed committee as the one embodying more features that will appeal to the citizens than any of the 200 odd that were submitted in competition.

The letter accompanying this plan is given below for the benefit of the readers of the Daily Capital:

To anyone who has seen a little study to the question, the preparation of a satisfactory system of naming the streets presents many difficulties owing to the physical geography. The Saskatchewan river and valley seem to be entirely necessary to name the north and south parts of the city separate. It is a fiction to expect that any street on the north side can be continued to the south side except where frequent bridges are practicable, and that in the case of Edmonton is impossible.

On the north side as a basis and center from which to operate, Jasper avenue and First street have been chosen. The streets from First street west have been numbered to conform with the original plan of that part of the city.

Difficulties are Overcome. Consideration was given to the numbering of the streets east of First, but the irregularities presented difficulties which it was considered could best be avoided by a naming system, and the necessity for designating the streets "east" and "west," therefore in naming the streets running north and south in what is known as the east side an endeavor has been made to retain as far as possible names of well known thoroughfares.

The names given in Norway are in alphabetical order, and as well known names will be easily remembered. It is thought that the use of the names of provinces and counties will, it is believed, ease the difficulty in that portion of the city where the surveys are irregular and difficult to designate to street numbers.

Jasper avenue having been taken as the basis, the streets to the north, designated avenues, have been named after rivers of the world, and would be known west of First street as "west" avenues, and east of First street as "east" avenues. In the east end the recurrence of avenues often than in the west made a difficulty which we think is completely overcome by giving the additional streets each the name of a river commencing with the same letter as the main street. The names of avenues south of Jasper have been generally retained, but the description somewhat changed in order to denote that they are not in a region where there is a regular series of avenues alphabetically named, that is, Victoria avenue, Victoria street, Victoria drive, McKay avenue, McKay road, Hardisty avenue, Hardisty drive, the name of Saskatchewan drive would conflict with Saskatchewan drive on the south side and has been altered to Parliament road.

House Numbering Explained. With regard to the house numbering on the north side, under the old system 300 level avenue was taken as a base. That might be continued were it not for the growth of the city in Jasper Place and Capitol Hill, where, unless the same base were taken, confusion would follow, and the street numbers for each block north of Jasper avenue would not harmonize, therefore consistency made it necessary that, having adopted Jasper avenue as a base, the houses on the streets north of Jasper should be numbered from Jasper 1000 numbers to a block in the east and the houses

MATHEU'S SYRUP OF TAR AND COD LIVER OIL

on streets running south of Jasper should be numbered south from that avenue. This necessarily means that the portion of any street, extending south of Jasper shall be designated "south" that is "Third street south" shall be called "South Third street" likewise Fourth-second street south of Jasper will be called "South Fourth-second street." If considered necessary, the same street north of Jasper might be designated "North Fourth-second street."

Any system on naming or numbering from a center will have to denote the direction north or south, east or west, on some street. It is believed that in the scheme now submitted the necessity for this has been reduced to a minimum.

While desiring to retain the names of old streets, in the case of Fraser avenue we have decided that name for Fraser for the name of an avenue called after that river and we would therefore change the name of Fraser avenue to Princess Boulevard.

Street west we consider a poor name that promises to be an important street in the future. We have suggested, therefore, the name "Ave" the name of a river—this denoting that it is a through street from east to west, but our preference would be for the name of Edmonton avenue, indicating that it is in the heart of Edmonton, the post office, city hall and other civic buildings being on this avenue or in the vicinity.

Whyte Avenue Remains. On the south side the necessity for a fixed center is at once apparent. Whyte avenue should not be disturbed as it is a through street from east to west. The present north and south street in Main street which we have suggested be named Strathcona Boulevard.

We have numbered the avenues south of Whyte avenue in the same manner as the streets of Strathcona Boulevard (for Main street) to be known as "west" avenues and the portion of the streets east of Strathcona Boulevard to be known as "east" avenues.

While it would have been possible to take the extension of Jasper avenue as a base on the south side, and number the streets from that base, there are so many irregularities that we considered it preferable to name the avenues and streets alphabetically north of Whyte avenue.

The alteration of numbering the avenues could be adopted if it were considered wise.

It will be noticed that the avenues south of Whyte avenue are not given same numbers as at present, with the exception that instead of being known as "avenues" they are designated "streets." It will be simply "First avenue west" etc.

The streets west of Strathcona Boulevard (formerly Main street) have been named in alphabetical order after authors and poets. Those east have been similarly designated after musicians, etc. Whyte avenue, however, those streets extending north of Whyte avenue should be designated "north" and those south of Whyte avenue to be designated "south."

The names of the avenues will be extended in a manner after Windsor Park and the streets similarly. What is known as "Mayfair" is entirely new. The names of the streets in alphabetical order for both avenues and streets can be easily applied.

Some Good Features. A few other streets in the city have been redesignated in a manner that we think would be acceptable. It will be specially noted that the lots in the blocks on the streets that are numbered on the north side face on the streets, consequently the numbered streets will be the most used, as the houses, generally speaking, will be faced on the same street as intended by the survey. Similarly the blocks on the avenues that are numbered on the south side are in length east and west, and the numbered streets will face on the numbered avenues. The fact that the streets designated by numbers do not come in contact will avoid confusion.

Least it might be felt that having corresponding numbers for streets on the north side and avenues on the south side might cause mistakes when the address fails to give "street" or "avenue." It should be noted that the words "north" and "south" occur only with streets and east and west only with streets, lessening the chance of confusion.

Difficulties in numbering houses in the east end will not be met as the circumstances require. It is suggested that this be arranged jointly with the building inspectors in the east end were not in conformity with the numbering in the west end as to the side on which odd and even numbers respectively are used. This should be remedied by having on only north or south side of the street.

The system followed in this scheme presents a plan that is already established and familiar. It also satisfies an urgent and easily understood act of the citizens in placing their streets under the authority of indefinite extension as the city grows in any direction.

San Francisco is fast utilizing this fire department.

speed are the main requisites. Dangerous play is barred in soccer, and as it should be, for sport can be sufficiently strenuous without involving brutality or anything but a fair and quick game.

Boys and men who want a game that can be played during the greater part of the year, that develops mind, spirit, suppleness and quickness of thinking, and that comes pretty nearly to being the ideal outdoor sport should organize soccer teams. It is a game that can be played with great benefit by the lightweight as well as the heavyweight, and in some ways the former has the advantage.

Cleveland will serve 1200 lunches in the parks next summer.

Children Cry FOR FLETCHER'S CASTORIA

COUNCIL APPROVES \$130,000 BYLAW NEW INCINERATOR

Capacity of the Plant Would Be Not Less Than 100 Tons a Day.

WILL NOT BE READY TO SUBMIT APRIL 6

Alderman May Suggested That Commissioner Booth Should Name Site.

The recommendation of Commissioner Booth that the sum of \$130,000 be raised for the purpose of building an incinerator on the north side of the city, was approved in council last night and will be submitted to the people in the form of a money bylaw when other bylaws are ready. It is too late now to submit it on April 6th. The motion was proposed by Alderman Clarke and supported by Alderman May, East, Sheppard and Kinney. An amendment was proposed by Alderman Smith that the question be referred to committee. The amendment was supported by Alderman Clarke, Douglas and Campbell and declared lost.

Alderman May suggested that since the present location of the incinerator would be not very satisfactory the commissioner should state where the new incinerator is to be built.

In replying Alderman Clarke said that it might be built on some of the Elizabeth street property as such places are supposed to be absolutely objectionable.

The new plant as proposed would have a capacity of 100 tons daily and provision would be made for generating steam for commercial purposes. Calgary has now two such plants in operation.

Henry Dorman, formerly of Michigan, now lives in West Larch, Mo., at the age of 115 years. He has used tobacco over 100 years.

WRITE STORIES FOR MOVING PICTURE PLAYS

New, Spare-time Profession for Men and Women—One Man Makes \$3,500 in Six Months

Going to the large number of new motion picture theaters which are being opened throughout the country, there is offered to the men and women of today, a new profession, namely, that of writing moving picture plays. Producers are paying from \$2,000 to \$10,000 for each scenario accepted, upon which they can build a "photo-play".

\$3,500 in Six Months

As it only requires a few hours' time to construct a complete play, you can readily see the immense possibilities in this work. One man, who gave the idea a tryout, writes that he earned \$100 in six months. It is possible for an intelligent person to meet with similar success.

One feature of the business which should appeal to everyone, is that the work may be done at home in spare time. No literary ability is required and women have as great an opportunity as men. Ideas for plots are constantly turning up and may be put in scenario form and sold for a good price.

COUNCIL NOTES

Alderman May submitted a number of questions which he desired answered at next meeting, as follows: (a) What reports have been made by Willis Chipman? (b) What disposition was made of these reports? (c) Is it a fact that the members of the press are denied information from city officials?

The recommendation of the parks and market committee that the north side athletic park fence be allowed to stand was referred back as the instructions the committee were not carried out. The committee was asked to hold a meeting on the south side and have the fence object to having a fence around the grounds present when the matter should be gone into thoroughly. Alderman Sheppard is strongly opposed to letting this fence remain.

The council approved of the granting of \$250 to the Edmonton Recreation company for the use of Diamond park during the summer months when the professional teams are away from home. All amateur teams will have the free use of the grounds for this consideration.

In moving the adoption of the report of the parks and market committee allowing \$500 for land music in the parks this year, Alderman May said that care should be taken to see that church services be not interrupted in the arrangements. Alderman Clarke suggested that the commissioner get all the information and assistance necessary to see that Saturday afternoon and Sunday are as pleasant for those who cannot afford to go away to the beaches for summer holidays.

The parks and market committee submitted a progress report on the stock yards proposition. Chairman May explained that one site had been tied up with an option and Mayor McNamee had wired that this had some valuable information in it. The report was adopted.

An explanatory letter submitted by Commissioner Saunders in reply to a letter of complaint about the high minimum charges for power from the Western Canada power was ordered filed by the council.

The application of Allan N. Campbell for permission to operate a ferry to the North Saskatchewan river from a point 200 feet east of Great Haystack to a point on the opposite side of the river has been referred to the public works committee for investigation and report.

Commissioner Saunders reported to council in the matter of the assessment of Kirkness street pavement. (1) That the assessment was made in 1913; (2) That all charges were made against the abutting property. The report was referred to the committee.

Commissioner Booth reported to council that the running expenses of the hospital for the month of February amounted to \$1,470 and the city treasurer was instructed to pay this amount over to the hospital board.

In connection with the arbitration proceedings to be taken in the matter of securing a strip of land for widening purposes at the corner of Norwood Boulevard and Kirkness street on the recommendation of the city engineer, Commissioner Booth's triangular piece, with a nine foot frontage on Norwood Boulevard will be included with the other five feet required to make this street the proper width at this point. On motion of Alderman Smith, the recommendation of Commissioner Booth was adopted.

A monthly report for February submitted by Commissioner Booth was on motion of Alderman May taken as read and filed. It covered the civic relief department, street maintenance, scavenging, incinerators, health department and inspections.

A statement showing disbursements during the month of February amounting to \$58,705.77 was submitted by C. L. Richardson, deputy commissioner of finance, and ordered filed.

Acting on the recommendation of the Commissioner Booth the council ordered the widening of Sixteenth street south east from 60 to 66 feet, the widening to be undertaken in the same manner as Twenty-fourth, Syndicate and Kirkness. The portion of the street requiring to be widened runs through the north east quarter of section 22.

The council approved of a slight change in the location of the spur in block 113, Parkdale, applied for by the Northern Investment Company. Telephone and electric light conduits and other public utilities interfered with the laying of the spur as formerly arranged.

The approval of council was granted to a report from Commissioner Booth in which he states that the Hudson's Bay company has been refused the right to erect a market on Jasper avenue and that the one now erected on Third street may remain if certain alterations are made. It is further recommended in this report that no further applications for such structures will be considered on Jasper avenue, First street or Whyte avenue.

Last night the council approved of the payment of \$142.45 under the Workmen's Compensation act to Fred Hawthorne who was injured last October while an employee of the store and work department. The shingles of a large conduit fell on him causing a compound fracture near the hip. He is still using crutches and will not be well for some time yet.

Following up the recommendation of Commissioner Saunders in a report to council that some action be taken to prevent explosions in sewers in the city, on motion of Alderman May the city solicitor has been instructed to bring down a bylaw covering this point. The city engineer pointed out in a letter that such explosions have occurred in a number of cities in the state due to the escape of gas or gasoline into the sewers and the lighting of same by matches or other lights. The advice of Commissioner Saunders stated that he had already given notice to the sewer maintenance department that no open lights must be used in sewers in future.

In a communication from City Solicitor Down the attention of council was called to the fact that the provincial government is asking for the transfer of certain parcels of land which the city agreed to deed over to the province for the parliament building, site and grounds. The solicitor points out that this matter has been in abeyance for some years and recommends that it be given some consideration by the present council. On motion of Alderman Clarke it was referred to the commissioner of safety and health and the city solicitor to investigate and report back to council.

The council ordered filed a letter from the Hester House Painters association in which they tender thanks for the consideration shown them in connection with the proposed widening of the city. While they could not take advantage of the offer of a street car trip around the city they state in the communication that they appreciate the kindness of the officials of the city just the same.

In a communication from the Canadian Institute of Sanitary Engineers read at the council last night it was stated that a convention was held in Edmonton on May 4, 5, 6, and 7, and a cordial invitation was extended to the city to send representatives to this convention. It was further stated that one of the main topics for discussion will be the adoption of a uniform plumbing code. In motion of Alderman Clarke the council appointed a committee to represent the city at this convention consisting of Messrs. MacNamee, Mayor Driscoll, Aldermen Sheppard, Commissioner Booth and the building and plumbing inspectors.

A communication from the Great Waterways Railway was ordered filed on motion of Alderman Clarke who stated that such a scheme might be alright for Manitoba and Saskatchewan, but as far as Alberta is concerned it would be a white elephant with the Panama canal and two transcontinental railways soon to be in operation. The co-operation of the city was sought in the promotion of a great waterway to the north, but it was considered by council as a matter which could not be effectively dealt with at this time.

A communication re the payment to the Magrath Holgate company of the amount already expended by that company on the paved artery to the Highlands was, on motion of Alderman Clarke, ordered filed and the commissioner of safety and health instructed to write a report for the next meeting of council setting out the position of the city from a legal standpoint in this matter. It was explained by Alderman Clarke that there has been some misunderstanding as to the exact terms of the former agreement and especially in reference to the sale of the debentures and all of these matters will be brought before the council in proper form at next meeting.

W. J. Jackson, secretary of the East Clover Bar union of the U.F.A. asked the council to make him one of the members of a copy of the official gazette. His letter was ordered filed on motion of Alderman Smith, and inquired given that he be furnished regularly with a copy of the publication.

Acting Mayor Driscoll presided at the meeting of the council last night. All the aldermen were present and the first meeting of the council was the end of the very long absence reached. Mayor McNamee is still in the east.

The war department is refortifying a large area near Fort Bayard, New Mexico.

Jasper Ave. and Second St. THE ACME CO. LTD. Distributors of Dry Goods

The Acme Co., Ltd., City, Gentlemen:

I herewith hand you my order for a pair of satin Opera Pumps, studded with brilliants, French heels full Louis XV., size 3 1/2, such as you have samples of.

"I was very much pleased to learn that the Acme Store is able to furnish one with any kind or style of women's shoes one might want. For I wanted a pair of those satin Opera Pumps very much and was beginning to think I would not be able to get them, until I learned you would send for a pair.

NOTICES OF CHANGE IN WESTERN HOTELS

Stanley Peck Staying in City States Accommodations Good as East.

SAYS FRUIT LAND IN B.C. IS FINEST IN WORLD

Chicagoans Refer to Canada as "The Bush" But They Cannot Beat It.

The railroad and hotel accommodations of western Canada are fast becoming just as up-to-date and metropolitan in every way as those of the east," said Stanley Peck at the King Edward hotel this morning, who had just come from the east. Mr. Peck and the Kootenay country of British Columbia.

"You often hear, for instance," he stated, "that the roads running out of Chicago are much superior to those out of the east. I traveled from here to Winnipeg on the Canadian Northern and I was not the only one to remark that his dinner service was not only equal, but much superior, to that of the roads I traveled over east and south of Winnipeg."

"In Brandon the Canadian Northern has a hotel, the Prince Edward, which surprises everyone who comes to that city and expects to see an overgrown village with hotels to boot. This hotel had become the very social center of that city, and the same might be said of the Prince Arthur in Port Arthur."

"The other two Canadian transcontinental have each a palatial hotel in Winnipeg, the C.P.R. having had the famous Royal Alexandra for years and last fall the Port Arthur was given at the corner of Main and Broadway for the G.T.P. railway. The latter is the very last hotel in modern construction and both of these are among the finest on the continent. In Edmonton also you have hotels which are a welcome relief to travelers and I notice that the citizens themselves patronize them extensively." Mr. Peck stopped off on his way

from Spokane at Bricketon, B.C., the center of a rich fruit country he never saw, and already they have planted their seeds and plants for their 1914 crop of some fruits and vegetables. J. Cartwright of that place has fifty acres, four years old, and all cleared, most of it planted to apples already bearing. Mr. Peck came up on the new Spokane-Alberta express and he has been chief engineer of the Chicago Great Western.

Postal Clerk's Dance.
The officers and members of the Postal Clerk's association of Western Canada (Edmonton branch) will hold an informal dance in the Empire Auditorium on Tuesday next at 8.30 p.m. Invitations can be had from any member of the post office staff.

Assistant to Mackenzie.
Toronto, March 24.—L. C. Fritch of Chicago, has been appointed first assistant to Sir William Mackenzie, in charge of the Canadian Pacific, for which he also had a good word to say.

Thousands of cattle could be raised in these northern latitudes, states Mr. Brabant. Hundreds of caribou and other varieties of deer abound, and there are 500 buffalo in two bunches.

Claim Subway Damages.
Earl B. Brown and Ernest H. Gale, members of the firm of Wilson & Gale, produce merchants, have brought action in the supreme court to recover \$2000 damages from the city for damages done to their property on Jasper avenue at the subway. Their claim is estimated by damages done to their business by reason of the access to their store and warehouse being cut off by the grading of the subway and the street car tracks being built so close to their building when run during the night hours that the building of the subway, J. C. F. Brown is acting for the city and Frank Ford, C.C., and R. B. Brown for the plainiffs.

A Miner's Cough

Is always a warning—it denotes a weakness and if neglected or carelessly treated it paves the way to bronchitis, pneumonia or consumption.

SCOTT'S EMULSION is the sure and safe remedy and should always be taken for coughs and colds because it relieves the trouble and strengthens the whole system to avoid sickness and loss of time.

SCOTT'S EMULSION is a pure medical builder, free from stimulating alcohol or stupefying drugs.

Every miner should take Scott's Emulsion to refuse the alcoholic, inferior substitutes.

Every drugist has it. Insist on Scott's.

SAYS POTATOES CAN BE RAISED APLENTY IN ARCTIC CIRCLE

Arctic Brabant, Inspector of the Hudson's Bay posts in the Mackenzie river district, is in the city and will remain till the spring break-up comes.

He states that potatoes can be and are raised at all of the company's posts on the Mackenzie, even those well within the Arctic circle, also beans, turnips and other garden vegetables. He himself has grown even corn which was delicious as food, but which of course did not ripen enough to be used as seed.

"Thousands of cattle could be raised in these northern latitudes, states Mr. Brabant. Hundreds of caribou and other varieties of deer abound, and there are 500 buffalo in two bunches. Near Fort Norman, on the Mackenzie, a huge coal mine has been burning for years, and there is also oil in the district, the only place in the whole country where it is absolutely known to exist."

Empire Auditorium MAY AGAIN BE OPEN FOR PUBLIC MEETINGS

It will again be possible to hold large public meetings in the Empire Auditorium if the owners of same comply with certain simple regulations which have been decided upon, as necessary by Chief of Police A. C. Langer and Building Inspector J. A. McNeil.

It will be remembered that after the recent Clark Butt concert Fire Chief T. G. Langer ordered the building inspector declared the risk of fire or panic was too great with the auditorium in the condition it was at the time, with loose seats and no level exits.

Under the new conditions the chairs will be fastened together in rows of six and seven, making thirteen in a row between aisles, so that the regulations that no seat shall be further than six seats away from the aisle can be complied with. It will also prevent the overturning of seats so easily before. Exits shall also be installed which will open up and down, and if necessary form a platform on which people might walk to reach the ground in case a hurried exit was necessary, as the ground is about four feet lower than the exits.

Gyran to Music.
Paris, March 23.—Edmond Rostand has commissioned the Italian composer Zandonai to put his "Cyrano de Bergerac" to music. M. Rostand asks that Walter D'Amico do this without authority.

Mrs. Nora Sullivan, died at 100 in Potsdam, N. Y., was one of the servants in the family of the famous Daniel O'Connell.

New Mexico in 1913 produced gold valued at \$884,446.

EMPIRE AUDITORIUM MAY AGAIN BE OPEN FOR PUBLIC MEETINGS

It will again be possible to hold large public meetings in the Empire Auditorium if the owners of same comply with certain simple regulations which have been decided upon, as necessary by Chief of Police A. C. Langer and Building Inspector J. A. McNeil.

It will be remembered that after the recent Clark Butt concert Fire Chief T. G. Langer ordered the building inspector declared the risk of fire or panic was too great with the auditorium in the condition it was at the time, with loose seats and no level exits.

Under the new conditions the chairs will be fastened together in rows of six and seven, making thirteen in a row between aisles, so that the regulations that no seat shall be further than six seats away from the aisle can be complied with. It will also prevent the overturning of seats so easily before. Exits shall also be installed which will open up and down, and if necessary form a platform on which people might walk to reach the ground in case a hurried exit was necessary, as the ground is about four feet lower than the exits.

Gyran to Music.
Paris, March 23.—Edmond Rostand has commissioned the Italian composer Zandonai to put his "Cyrano de Bergerac" to music. M. Rostand asks that Walter D'Amico do this without authority.

Mrs. Nora Sullivan, died at 100 in Potsdam, N. Y., was one of the servants in the family of the famous Daniel O'Connell.

New Mexico in 1913 produced gold valued at \$884,446.

Billiousness

When the liver refuses to work there is no more the consumption of food, the bile and other ingredients of the blood are not properly digested. You do not get the nourishment you need from the food.

FINE MILITARY ATTRACTIONS FOR THE HORSE SHOW

Regina Detachment of R.N.W.M.P. to Put on Musical Ride.

TENT-PEGGING TESTS;
AND OTHER COMPETITIONS

New Features Will Contribute Greatly to Success of Undertaking.

Eighteen mounted riders will be included in the detachment of the R.N.W.M.P. who are coming from Regina to take part in the horse show. They will put on a musical ride every evening of the show, and also perform a number of military manoeuvres which are always attractive features of any show.

The halachala mace is one of the most interesting features, though it is also part of the show. The mace is rather difficult to discriminate where there are so many performers of similar interest. There is a mace in the hands of the directors, however, as to the entertainment of the R.N.W.M.P. the mace is the property of the detachment. Military manoeuvres combined with military music, never fail to reach the hearts of the people, perhaps because most human, no matter of what nationality, have a touch of the fighting spirit without discipline and drill.

It is also expected that this detachment will enter into the tent-pegging competition, always a popular feature of military tournaments and horse shows.

The account of the great interest which has been displayed by the military section far and near, the directors have decided to include the following military competitions, not included in the prize list:

Tent pegging—The usual conditions, open to Canadian militia and R.N.W.M.P.

Section competition—Open to teams of four from Canadian militia or R.N.W.M.P. Teams of four to start at a given point, jump hurdles of two and six feet, then a series of brush, then to dismount, handling over horses to one, each of the three to fire four rounds of black smoke, then over hurdle, mount, ride to second hurdle and repeat, dismounting and firing, then to ride to winning post; teams to be judged by time and style of performance, condition of uniform and equipment to count twenty points.

The attraction of these competitions goes without saying, and the fact that the association has been able to secure co-operation of the military forces will contribute greatly to the success of the first horse show, and will help to establish it thoroughly for all time to come.

PROPERTY OWNERS ASK COUNCIL TO WIDEN FIFTH STREET

A delegation of property owners from the south side waited on acting mayor, asking that the city should before him a petition asking that steps be taken to widen Fifth street from Whyte avenue to the eighth avenue south. It is stated in the petition that the property owners are of the opinion that this should be a local road, and that the city should be apportioned in the same manner as was done when this street was widened last year from Whyte avenue to the high level bridge.

Buchanan's
REAL
SEAL
Scotch

NEWAY EXPECTS BIG RUSH SETTLERS WEST THIS SEASON

A. C. Shurt, general passenger agent of the Canadian Pacific at Winnipeg, says that he expects a big rush of settlers west this season.

Mr. Dawson, district passenger agent at Calgary, are in the city today. Mr. Shaw states that his road expects exceptionally heavy traffic of furs this year, and that they seem to be as a rule in better circumstances than is usually the case. Asked if the Pacific Great Eastern south of Vancouver and north to the Peace River country will give it a good start for the next three years, after which it will be up to the people themselves to make a city out of it.

African Trip Abandoned

Berlin, March 26.—The trip to Africa which the crown prince had purposed making this year, has been definitely abandoned. It is understood that the reason for the change is the outbreak of the influenza epidemic in Germany.

J. HANNING, Manager.

Sealed tenders, registered and clearly marked on the outside of the envelope, must be received by the City Engineer and addressed to the City Commissioners, Edmonton, Alta., will be received up till 5 p.m. of the 14th day of March, 1914, on or before the opening of lateral sewers.

The successful bidder to be accompanied by a certified check for a sum equivalent to the amount of the bid, and to pay (1) per cent. of the amount of the bid.

The successful bidder will be required to give a surety bond for twenty (20) per cent. of the amount of the tender.

The deposit of the unsuccessful bidders will be returned within three (3) days after the opening of the tenders.

Specifications, forms of tender and plans may be obtained at the office of the City Engineer, 1000-10th Avenue, S.W., Edmonton, upon a deposit fee of ten (10) dollars. This deposit fee will be returned in full when the plans and specifications are returned in good order.

The right is reserved to accept or reject any or all of the tenders.
